From the starkly beautiful Sonoran Desert, through the scenic Mogollon Rim country, to lush mountain meadows, the Arizona Wildlife Viewing Guide will lead you to 90 premier wildlife viewing areas and will better your chances of seeing wildlife once you arrive. Included are detailed descriptions of each viewing site and its wildlife, photographs of Arizona's diverse wildlife and scenic natural areas. This guide was made possible by the National Watchable Wildlife Program, a unique partnership of state and federal resource agencies and educational, and conservation opportunities. Each viewing site was selected with the help of experts from many of the following agencies and organizations. These groups also make significant technical contributions to the research and development of this guide: Defenders of Wildlife; Arizona State Parks and Fish Department; Arizona State Parks Board; Bureau of Land Management; USDA Forest Service; U.S. Fish and Wildlife Service; Bureau of Reclamation; Arizona Department of Transportation; The Nature Conservancy; National Fish and Wildlife Foundation; Arizona Public Service Company; Arizona Chapter of The Wildlife Society; Salt River Project.
