Reinhold Heller : Art in Germany 1909-1936: From Expressionism to Resistance : The Marvin and Janet Fishman Collection before purchasing it in order to gage whether or not it would be worth my time, and all praised Art in Germany 1909-1936: From Expressionism to Resistance : The Marvin and Janet Fishman Collection:

From Library Journal This collection of German Expressionist art is touring the United States and several cities in Germany. The album of over 100 color plates depicts the destitution, decay, and corruption of German life between the wars. Included are the vivid creations of Beckmann, Dix, and Grosz as well as those of lesser-known artists (Ludwig Meidner, Karl Hubbuch, Georg Tappert, Bruno Voight, Richard Ziegler, etc.) Introduction and interview with the collectors open the text; at the end are thorough descriptions of artists and works in catalog fashion. This publisher issues many books on German art, and American audiences will see reproductions not published here before. As a supplement to the many fine books on German expressionism, this is recommended for academic art libraries.- Hara L. Seltzer, NYPL Copyright 1991 Reed Business Information, Inc.
