By Beyond-Is-Within Also This whole 50-state series is exceptionally well produced, from the quality semigloss paper stock to the cute state-specific repeating motif endpaper designs. The text is both ample and informative, but the real delight is in the many (necessarily smallish but well-chosen) gorgeously reproduced pictures! All aspects of the state's artistic heritage and ongoing activities are represented. A solid general introduction and timeline sets the reader up to appreciate the subsequent themed sections and their appealing images within a broad historical context. These titles make useful pocket companions and itinerary planners for state-wide art appreciation forays. You'll enjoy this one -- and want to collect the set!

An armchair tour through Maryland's rich cultural history includes a profile of the signers of the Declaration of

Independence and America's premier family of painters, the Peales, and many other history-making Maryland residents.
