Frances Fuller Victor : Atlantis Arisen before purchasing it in order to gage whether or not it would be worth my time, and all praised Atlantis Arisen:

Written in 1891, the author writes about history and her personal observations of the Northwest region collected during extensive travels. Topics include towns of the Willamette (sic) Valley, the Columbia River, the San Juan Islands, mining, and forests.

About the Author Victor was an important and well-known member of early California's literary scene.
