**From Gestalten : Austin on the Hoof** before purchasing it in order to gage whether or not it would be worth my time, and all praised Austin on the Hoof:

The print is rather hard to read due to the size of font. It includes a small non detail map. I wasted \$6.95 on something I could print up from the internet. Shame on me! 0 of 0 people found the following review helpful. portableBy Fluffypaws34 I am moving to Austin in May and this was a great way to learn about some of the hotspots in town. It is small and compact and I can carry it with me anywhere. 0 of 0 people found the following review helpful. Too Pricey. Wasted My Money. Thought It Was An Ad For Something GreaterBy Al Gilmore Kinda pricey for a two-page map. Should be on Kindle

Informed by on-the-ground research, Herb Lester's handy, folded guides uncover what makes a city special - its most distinctive shops, restaurants, cafs, bars, museums and galleries, whether unmissable old favourites, exciting new arrivals or overlooked treasures. Each entry comes with its own brief description, and a basic map helps the reader get their bearings and make plans. This is an ideal companion to the Texas state capitol; well-versed in Austin's history and cultural attractions, it also has an eye to the wild side of life. The 49 entries encompass Tex-Mex restaurants and German beer halls, honky-tonks and cemeteries, record shops and natural springs. And, of course, there's barbecue too. Printed on a single sheet of 100% recycled paper, these light, portable guides are an ideal travelling companion.
