James Kavanagh, Waterford Press : Australian Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Australian Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide):

0 of 0 people found the following review helpful. Nice quality printing, but definitely just an overview. Don't count on identifying many birds with this.By Gary SamadNicely printed guide, but couldn't identify many birds we saw. This is definitely just an overview.1 of 1 people found the following review helpful. Basic but helpedBy southpamvery basic, one drawing of bird, short description, but was helpful on our trip Down Under. I used this as a quick reference to help me narrow down where to look in my more detailed guide.0 of 0 people found the following review helpful. Four StarsBy Asa Reed JrVery informative, can't wait to take it to the field.

Australia and its surrounding islands and territories have more than 850 recorded species, of which more than 45% are found nowhere else on earth. Australian Birds features more than 100 of the country's most familiar birds, along with a map to the natural vegetation zones and a list of important bird viewing sites. It is the ideal pocket-sized reference guide for bird lovers of all skill levels. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and resident alike. Made in the USA.

From the Back CoverMany indigenous species native to Australia in this title of the Pocket Naturalist series.About the AuthorZoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
