It's the most comprehensive back roads book that you can find. I happened to find this treasure used. Once you have this book never get rid of it. The information it contains is priceless for your back country adventure.0 of 0 people found the following review helpful. A must have for any explorerBy James GThis book is a must have for any explorer is southern California. It gives a great introduction to California wildlife and fauna as well as some history but most importantly it does a fantastic job of reviewing the various roads and trails. If you think that California is all strip malls and the beach then this book will definitely change your mind.0 of 0 people found the following review helpful. Very knowledgeable guide.By Jon FagerstromA must for any Southern California off-road

explorer. Be prepared and know what to expect on that next trail. Makes sure you don't miss anything.

Backcountry Adventures: Southern California provides 2,970 miles of routes that travel through the beautiful mountain regions of Big Sur, across the arid Mojave Desert, and straight into the heart of the aptly named Death Valley. In addition to the enormously detailed trail information, there are hundreds of photos of frontier towns, historic mining camps, old railroad routes, wildflowers, and native animals. Trail history comes alive through the accounts of Spanish missionaries who first settled the coastal regions; eager prospectors looking to cash in during California's gold rush; and legends of lost mines still hidden in the state's expansive backcountry. The book appeals to virtually everyone who loves the outdoors: campers, anglers, hikers, mountain bikers, snowmobilers, amateur prospectors, sightseers, GPS owners, wildlife seekers, and more! CONTAINS 153 TRAILS, 640 PAGES, 645 PHOTOS (85 historic black white and 560 color), AND 159 FULL-COLOR MAPS! SIZE: 8 1/2" x 10 7/8"
