I prefer to find my own way so the routes are sometimes superfluous and sometimes very necessary. It's a bit dated. 3 of 3 people found the following review helpful. Wonderful! By sharon helgoe (shelgoe@marshall.com) This is a great book! Using it enables one to discover places

that they never knew existed. The descriptions are great and the directions are very explicit and correct. We have taken 3 of the tours so far and had wonderful times! I am wondering if there is something similar for Northern California.1 of 2 people found the following review helpful. Wonderful!By A CustomerThis is a great book!
