**Pat Bagley : Bagley's Utah Survival Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bagley's Utah Survival Guide:

It is also very factually accurate. We share this book with all of our visitors. Like having a local give you a back-door tour of Utah and what makes it tick.0 of 0 people found the following review helpful. Hilarious, Irreverent, HelpfulBy Pat in Northern UtahMy son gave me this little book right after I moved to Utah. I gave it to my mother last month when she was getting ready to move here. If you have a sense of humor and live in or are about to visit Utah, this is for you.Pat Bagley is the political cartoonist for the Salt Lake Tribune, the less-Mormon of the two dailies in Salt Lake. He totally understands what makes Utah unique and points out and illustrates those things in a humorous way, that should not be TOO offensive, even to the natives, Mormon and otherwise. He clearly loves Utah, in spite of itself.1 of 1 people found the following review helpful. Bagley fanBy SuiteSymphonyI can usually count on Pat Bagley to deliver an entertaining and insightful look at Utah and Utahns, and this book indeed delivers with its hilarious drawings and text. Bagley pokes fun at us, but not in a mean-spirited way; a lot like the best efforts of Mel Brooks. I gave a couple of the books as gifts, and both were huge hits with the recipients. I guess if you are among the whiners who often write into the Tribune to complain about Bagley, this book probably isn't for you -everyone else will love it.

Bagley's Utah Survival Guide is an interpretive joyride through the Beehive State. Nationally syndicated editorial cartoonist Pat Bagley has penned the must-have guide book for anyone who wants the real dirt on Utah. History, culture, politics, religion, all-you-can-eat cuisine; it's all here, replete with cartoons, illustrations, maps, recipes, and fascinating facts--Mormon pioneer crops were saved from voracious crickets by dinosaurs. [technically, this is true; it's in the book!].

About the AuthorPat Bagley has become an authority on the quirky side of Utah, having served 28 years to life as editorial cartoonist for The Salt Lake Tribune. He made a splash nationally with the Clueless George series, which has over 50,000 copies in print. His daily cartoons have been seen in Time, Newsweek, The Wall Street Journal, The Los Angeles Times and over 450 newspapers around the country.
