Great book for those who fish or want to fish Baja CA.By A CustomerThis is a really good book that describes what places to go and what to use for specific species. Has a nice layout of knots, and gives pointers on the various popular types of fly tackle used there. Could have included more fly patterns, but being a Baja fisherman myself, it wasn't a setback.2 of 6 people found the following review helpful. A great book!By A CustomerDefinately one of the better books on fishing Baja. Well worth getting!
