Very helpful and enjoyable. Provides information for planning purposes and additional information embellished the incredible journey.4 of 4 people found the following review helpful. DisappointedBy Barbara PosnerThis book has very limited information - I was quite disappointed. On a cruise there are several options for sightseeing and I did not find enough here to truly give me good direction with

the exception of Talinn and a few other ideas. 1 of 1 people found the following review helpful. Excellent Baltic Sea Guide
By Customer I am taking a cruise to the Baltic next summer and found this book very interesting. It explains the Baltic sea, the geography, etc. and is very interesting. There is a chapter on all of the countries and the highlights in each one. This is a small book that covers a lot unlike Fodor's . I recommend this book highly.

The traveller guides series are informative and concise, and are aimed at mainstream travelers wanting to discover something a little different on their trip. These indispensable guides offer the perfect blend of culture, history, practical information, mapping, photography and listings.
