I'm also happy with the variety of rides/distances/points of interest in the deck. My husband and I are looking forward to trying some of these out!0 of 0 people found the following review helpful. The concept of individual cards is a novel idea,By eharrI thought that this was a book of Bay Area bike rides but it is a series of laminated cards each depicting a bike ride. They are durable so they are able to fit into your pocket so you can take the trail map with you.
