If you love the Eastern Shore you will love this bookBy Bob StonerMr. Iams fell in love with the Chesapeake Bay area when he moved from Indiana, Pennsylvania, to Maryland. This book with its excellent paintings and text gives an idea of why he was inspired by the Bay. Many features of the Bay have changed since the book was made and the book is a record of some of the things that have been lost. A painting is often a more personal record than a photograph so perhaps the paintings are a better way to record the past.0 of 0 people found the following review helpful. Three StarsBy wackeeGreat paintings!

A book concerned with art representing the Maryland coast.
