whether or not it would be worth my time, and all praised Beds and Blessings in Italy: A Guide to Religious Hospitality:

10 of 14 people found the following review helpful. extensive listings, but not enough infoBy galaxy oneThis book has a lot of places listed, which is great, but there's not enough detail. Many listings do not show prices, nor do they all tell you how to get there by public transport or car or how far from city centers or historical areas. If you find one you like, you'll have to do more research on your own to see exactly where it is and how to get there and how much it costs. Also, they do not list the curfew hours if any. Could be great if they did a bit more in the next version.

A traveler's guidebook to religious houses all over Italy that accept overnight guests. Complete information about and directions for each house are included.
