**Larry Hyslop : Beeplants and Whiptails: Stories of Nature, the Plants and Animals of Zion National Park** before purchasing it in order to gage whether or not it would be worth my time, and all praised Beeplants and Whiptails: Stories of Nature, the Plants and Animals of Zion National Park:

0 of 0 people found the following review helpful. Great ReadBy Kindle CustomerThis book really helped me pay attention when hiking through Zion. And I had learned new things about fauna and flora.0 of 0 people found the

following review helpful. Five StarsBy Ma GeeNice read giving a good description of trails and wildlife within the park. I really enjoyed this book!

Beeplants and Whiptails delves beneath the surface beauty of Zion National Park to describe natural communities of birds, plants, reptiles and mammals. It is a book for people who love this red rock country and enjoy a good story. The author takes us along as he hikes through scenes of life uniquely adapted to this desert setting. Written in a conversational style, these short narratives go beyond a simple natural history of Zion National Park. They convey the authors passion for this canyon country, offering rich details of these communities and their inhabitants. Using his powers of observation and his use of extensive research, he paints with words, developing scenes of deep canyons, fir forests, and desert scrubland. The resulting book is an excellent companion during any visit to Zion National Park.

From the PublisherSeventeen stories offer an excellent way to learn about the plants, animals and geology of Zion National Park. The information offered goes beyond that available in identification guides.About the AuthorLarry Hyslop has lived in Elko, Nevada for 13 years with his wife, Cindy. Larry is a computer instructor at Great Basin College, and enjoys researching and writing about Nevada and the Western National Parks. They have two children and four grandsons, who are all in training to become hiking partners with their grandfather, although the one-year old is resisting the notion. He is author of the following books: Hikers Guide; Trails in the Elko Area, CL Publishing, 1997. The Ruby Mountains, A Visitors Guide, CL Publishing, 1999 Pikas and Pinyons: 30 Nature Tales from the Ruby Mountains, CL Publishing, 2002 Beeplants and Whiptails; Stories From Nature, The Plants and Animals of Zion National Park, CL Publishing, May, 2003. ..., Greenhaw, Charles, Mountains, Grass and Water: Explore the Hastings Cutoff and Overland Trail through Ruby Valley, Nevada, CL Publishing, 2003. ..., Greenhaw, Charles, Entering the Great Basin: Explore the California Trail through Wells, Nevada, CL Publishing, 2003.
