The award-winning Oregon Road Recreation Atlas has been completely revised and improved, from cover to cover, with new features, more road information, and dramatically improved terrain clarity. In addition to the enormously detailed and beautiful Landscape Maps, there is now a Hunting and Fishing section and expanded Recreation Resources. The Recreation Guide maps now show statewide Wildlife Management Units by name and boundary. These units are shown over public land ownership color tints very handy for accessing hunting areas and applying for tags and permits. Hundreds of two-wheel and four-wheel drive back roads have been added along with an exhaustive updating of recreation information covering every corner of Oregon. The second-edition Oregon Road Recreation Atlas will once-again set the standard of excellence for recreational road atlases
