Robert P. Seass, Barbara Osborne, Michael Perlin : Best Bistros Brasseries: Manhattan, Paris, San Francisco
before purchasing it in order to gage whether or not it would be worth my time, and all praised Best Bistros Brasseries:
Manhattan, Paris, San Francisco:

4 of 5 people found the following review helpful. A must have for ALL food lovers!!By A Customer"Best Bistros
Brasseries" is the best food-specific guide I have used. Long time residents of NYC and lovers of French food, my

husband and I have often sifted through pages of other restaurant guides trying to locate the perfect restaurant in the right neighborhood. Flipping back and forth between the list of restaurants by neighborhood and/or cuisine and the index did not add to a pleasant dining experience! The BBB makes easy work of this often daunting task by organizing the restaurants in rank order by neighborhood. In addition, the book contains a true working index. If you know the name of the restaurant you'd like to visit, simply refer to the index which lists each restaurant featured in the book, its rating, address, and location in the guide for a more detailed review. 0 of 0 people found the following review helpful. Follow your stomach through Paris--By Frank and Susan P. This guide for the neophyte bistrophile traveling in Paris is a "must have". Sightseeing planned around meals as the primary intent and location as secondary is our kind of trip. Brasserie Flo and Chez Louie are favorites. Buy some "Slimfast" for consumption one week before and one week after this trip. The NY Guide is just as helpful. We have never been disappointed with their recommendations. Bistro Les Amis on Spring Street is a favorite. Seasonal cuisine indoor or outdoor weather permitting. 0 of 0 people found the following review helpful. Paris Bistro Content By A Customer I bought this book because of the section on Paris. I was very disappointed in the book because it was of little help. There is no map shown of where the bistros might be so there was no way of knowing where any were. The list of addresses didn't really help as Paris, unlike New York, is not laid out on a grid and the addresses actually give an idea of the location. Also, most of the bistros were the higher priced ones.

Savoring the renown cuisine of France should be one of the high-points of any trip to Paris. Unfortunately, many travel guides give their top ratings to deluxe "temples" of haute cuisine that most travelers will find stuffy, intimidating and - even with the strong dollar - incredibly expensive. Conversely, the low-priced brasserie/cafs that can be found on almost every street corner are fine places to stop for a drink but generally serve mediocre food. Worst of all, there are also many tourist traps that manage to be both mediocre and expensive. What's the secret to finding a great meal in Paris without spending a fortune? Join Bob and Michele Seass, authors of "Best Bistros Brasseries in New York City" as they dine, just as most Parisians do, in cozy, reasonably priced neighborhood bistros. In "Favorite Paris Bistros - Twenty-First Century Edition" they share the many dining highlights, plus a few surprising lowlights, from their last eight trips to the City! of Light. Their trip reports also include sightseeing suggestions and tips on cozy small hotels.

From the Publisher "Favorite Paris Bistros Twenty-first Century Edition" is the new, revised and greatly expanded third edition of the Parisian savvy dining guide, "Favorite Paris Bistros." It is also one of the first Parisian travel guides to show all prices in euros. About the Author Robert P. Seass is a professional member of the James Beard Foundation, and an executive with a global financial services firm. He believes that bistros offer some of the best dining values found anywhere, offering delicious, satisfying fare at reasonable prices in comfortable, often charming, surroundings.
