**Bruce Grubbs : Best Easy Day Hikes Flagstaff** before purchasing it in order to gage whether or not it would be worth my time, and all praised Best Easy Day Hikes Flagstaff:

2 of 2 people found the following review helpful. Too small. Poor maps. By A Customer...The confusing maps are computer mouse drawn using the standard icons for trails and landmarks. Trouble is with these pint size guides, the

dots, dashes, solid lines, hollow lines, squiggily lines, circles and boxes and a half dozen other gibberish route representations all blend together to make the maps look like a tiny plate of jumbled electronic spaghetti. My first reaction was "Which way is up?" Nor is there a contour profile to quickly identify altitude gain over distance....This guide is a disappointment....

Hikes varying from half-hour strolls to full-day adventures, this guidebook is for everyone, including families.

From the Back Cover From the colorful slopes of San Francisco Mountain to the scenic rim of Walnut Canyon, writer Bruce Grubbs picks out the best of the area's plentiful hiking opportunities.
