Glacier and Waterton Lakes National Parks (Best Easy Day Hikes Series):

1 of 1 people found the following review helpful. and better information on finding some of the trailheads
By Sherry
I really appreciated having an idea what we were getting into when we choose our hikes. My biggest complaint was that there needed to be more information on which trails would be snow-covered and for how long, and better information on finding some of the trailheads. All-in-all, great for picking trails suited for a family with children.
8 of 8 people found the following review helpful. Very helpful, but trail distances can be confusing
By Wayne Jorgensen
My only complaint is that the distance of the various trails was based on the trailhead. Wait, this is not a problem unless access to the trailhead is via another trail. You need to factor in the distance to get to the trailhead, which can add considerably to the total distance of the hike. Otherwise, I liked the guide.
