7 of 7 people found the following review helpful. Watch Out For Trail ClosuresBy James AdcockWe ran into several

trail closures where rain had made things too slippery. The given GPS locations weren't precise enough to always be helpful for us -- you'd get to the stated GPS location and it still wasn't clear where exactly the trail head was. Suggest take a laptop when visiting Kauai and double-check your hike choices before heading out -- and have a "Plan B" and "Plan C" hike as well! 2 of 2 people found the following review helpful. OkBy jayI got this for my trip to the outer island. It does have some good hike and a good description of where the hikes are located. But the overall location of all the hikes in the book aren't shown on a big map. They each have a map of the small area that they are in. 1 of 1 people found the following review helpful.
