Suzanne Swedo : Best Easy Day Hikes Hawaii: Maui (Best Easy Day Hikes Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Best Easy Day Hikes Hawaii: Maui (Best Easy Day Hikes Series):

13 of 13 people found the following review helpful. Best Easy Day Hikes Hawaii: Maui By walkabout This book was very disappointing to me. The copyright date is 2010 but the information is out of date or missing. We saw trailheads just off the highway with no information for them in the book, like the Lahaina Pali Trail. So much more information, or more up to date information, should have been given. The information for the Olowalu Petroglyphs is very out of date as far as finding the trail, following the trail, and how to view them. [Chez Paul Restaurant doesn't exist anymore] Nakele Blowhole is a sight of 2 blowholes. You could miss the best one with these directions. There is also another parking spot to start your hike that actually gives you a view of where you're going. This book needs to be reworked. 0 of 0 people found the following review helpful. easy hiked By di222 was not disappointed, easy to read and type if hikes 0 of 0 people found the following review helpful.
