like the book, but was hoping for inclusion of a longer hikes. There are lots of easy hikes for families. This book has great information, descriptions of hikes, trailheads, distance, time and difficulty as well as whether it's in the sun the whole time or jungle. Definitely recommend it if you want to take some quick hikes on the island.**** UPDATE: We just returned from our trip and this book is wrong about a few hikes, names Maunawili Falls. It is not easy, very muddy, confusing and lack adequate signage. We got turned around and added at least 1 mile to our hike. I was pretty concerned, but luckily there are quite a few hikers to get directions from. The falls is small and not really worth it in our opinion. Wear good boots, do not do this when it has rained recently.0 of 0 people found the following review helpful.
