A compact backpack size that was easy to read, with maps for our week on the Olympic Peninsula. We did four of the hikes recommended and will definitely use this again.2 of 2 people found the following review helpful. Very good book for the casual day hiker.By Gwen P. My family and I purchased this book for our trip to ONP. We planned to take some smaller hikes (5 miles or less) and this book did a good job of pointing us in the right direction in determining which ones were extra special and which were simply ok. For each hike, there was a description of the hike, its difficulty, some things you could expect to see and its location. It's thin size was also a plus in that you could easily throw it in your backpack. I would recommend the book.0 of 0 people found the following review helpful. Title is very misleading!By Connie HartThe title says best easy day hikes but a lot of them are not easy but moderate and more challenging. Maybe this is an error but one has an elevation gain of 1340 feet.

Hikes varying from half-hour strolls to full-day adventures, this guidebook is for everyone, including families.
