SchererI had purchased the larger hiking guide for RMNP but noticed that several of the recommendations in that guide were full-day, strenuous hikes. We were looking for something more suited for a family with children to do half-day hikes, and this guide was excellent for that purpose. The map was extremely valuable as well, and it went everywhere with us during our week-long vacation.0 of 0 people found the following review helpful. Have tried many different publishers but these are consistent.
