Excellent Easy Day Hikes in the Santa Fe areaBy Jean TempletonThis hiking guide was all we needed for my family and I to enjoy lovely and easy day hikes in the Santa fe area. The book contained great descriptions of the areas covered, including Bandoleer national Monument and Los Alamos. This guide helped us to get into nature without overwhelming us with complicated directions to reach our destinations. The hikes included in this book were excellent selections of the various choices available to the santa fe day explorer. Thank you Linda and Katherine for such good information and suggestions!5 of 5 people found the following review helpful. A great guideBy Philip H. Nye, Jr.We've taken several hikes in the Santa Fe area using the Regnier book as our guide. It is excellent and we can recommend it to anyone hiking in and around Santa Fe. We understand she is updating the book at this time. Beginning hikers need the help of this book.14 of 16 people found the following review helpful. Not for the real hikerBy Robert E. FederThis book is quite disappointing in its selection and description of hikes. I also purchased Martin's 100 hikes in New Mexico for our upcoming trip there, and would recommend Martin's book much more highly over this one.

Hikes varying from half-hour strolls to full-day adventures, this guidebook is for everyone, including families.
