By Seattle Siren Pretty basic book, not sure really why only 3 stars its just not as detailed as others I have purchased such as day hikes for creaky knees ..maybe its the way its set up ..I don't know. It serves its function; which is to familiarize myself with day hikes in the area I just moved to. 1 of 1 people found the following review helpful. Nice book for new residents By the way This book is terrific for those (like us) who may be new to an area and are looking for nice places to hike that aren't too far away and aren't overly difficult. Glancing through the book we've found several hikes that we plan to do this year starting next week. 3 of 3 people found the following review helpful. Planning vacation with actual knowledge of terrain! Raring to go. By pat "Best Easy Day Hikes SPOKANE/COEUR D'ALENE" (A Falcon Guide), which I spotted and bought on AMAZON, gives me all the information I may need to take some of the hikes mentioned. As a great-grandparent I need all the facts I can get and this book is thorough in what I need and what I am in for. Want to explore Northern Idaho and Washington, and see all I can. The Guide will be in my pocket all the way. Thank you for making it possible, now I know I can do this!
