Four StarsBy kittykat23A little small little information...however...information given will be helpful in our summer travels.0 of 0 people found the following review helpful. Start point for planning hikesBy Royce CraneGood orientation info for someone who has not been there previously. It's a start point for planning hikes for a short visit.1 of 1 people found the following review helpful. Bryce and Zion canyon - spectacular places; hike first, read this book maybe.By Adrian Bauman a modest tome, maps quite poor [only sketch maps], but descriptions quite good. An inexpensive tome, proving you get what you pay for. Not bad at the price. Serious hikers will need maps too. Non serious hikers, i discovered, dont need maps or this volume.

The best day hikes in Zion and Bryce National Parks, including maps and mile-by-mile hike descriptions.
