There is a growing interest in hiking the Continental Divide with several non-profit organizations working to repeat the model of the Appalachian Trail. There will be several books on hiking long sections of the Continental Divide Trail, but this book is for hikers who don't have the time or energy for a long "through hike" on the Great Divide. This book includes a selection of truly spectacular hikes along or over the Divide, ranging from an easy day hike to a week-long backpacking trip. Features 60 hikes from New Mexico to Alberta.
