**John Logan Allen : Lewis and Clark and the Image of the American Northwest** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lewis and Clark and the Image of the American Northwest:

The author traces how Lewis and Clark's epic journey of 180406 and their charting of the American Northwest dramatically revised generally held concepts of the area's geography. With 45 maps. "Splendidly researched and

highly readable" Donald Jackson, editor of the Letters of the Lewis and Clark Expedition.
