Book by Hartley, Robert E

About the Author BOB HARTLEY fell in love with the West in the 1960s. Since then he has lived and traveled in, studied and written about the region. He learned of the 1883 expedition of President Chester A. Arthur to Yellowstone National Park in 1995. Hartley presented a history paper on the subject, and a magazine article was published. The approaching 125th anniversary of Arthur's trip (2008) inspired this book. Hartley is the author of six published books on history and politics, including *Death Underground: The Centralia and West Frankfort Mine Disasters* and *Lewis Clark in the Illinois Country: The Little-Told Story*. He and his wife, Mary, live in Westminster, Colorado.
