Richard Sapp : Lewis and Clark on Their Journey to the Pacific (In the Footsteps of American Heroes) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lewis and Clark on Their Journey to the Pacific (In the Footsteps of American Heroes):

This series is unique in that it combines biography and geography to tell the stories of remarkable individuals whose bold and often life threatening journeys had a profound impact on our nation's history. Readers will travel along with them, experiencing the challenges they faced, as well as their accomplishments. The text is supported by numerous maps, including a comprehensive map and reference guide at the end of each book that shows the sites referred to in

the text and lists their addresses and web sites, allowing contemporary readers to literally follow in the footsteps of these American heroes.
