Must Read for Full-time Wanna-be's
By Kindle Customer
If you're interested in full-time RVing, this is an absolute must-read. Many other books on the topic wax romantic about beautiful sunrises and the call of the open road. All that's well and good. But this is a clear-eyed look at how to prepare, how much this can (or may not) cost, what it's really like to live with your loved one(s) in a small metal box, how to buy your home on wheels, what to do to keep everything (or almost everything) working, tax repercussions, working or not working, and more. We're not on the road yet, but will be retiring in 4-5 years....so preparations are underway. This book will continue to be a great guide as we move forward.

By S. M. Jenkins
Please be aware that this is NOT a general book about using an RV. This is devoted to selling your residence and most of your belongings, then taking up permanent residence in an RV. If you are not interested in full-time living in an RV, you will not need this book.

From the Author
Long-time readers of Groene books know that we lived full-time on the go for ten years. As happily homeless travelers we have made a living as a travelwriter and photographer team. For ourselves and others like us, things have changed dramatically. Prices for fuel, campsites and food have risen. Communications are now a snap thanks to the Internet, Skype, smart phones and other technologies. Homeschooling has become common. Opportunities for making a living on the road, and even raising a family along the way, have skyrocketed, allowing more younger families to become full-timers. If you haven't read the new (4th) edition of our book, you're missing these important changes.
