to these countries and it is a good reference for futureBy Joan BlaskovicsThis was a brand new library book. I think I was the first to crack it open and the details are just what I was looking for prior to a safari to five of the countries I will visit. It is too heavy for me to take on the trip but I needed an introduction to these countries and it is a good reference for future trips. It arrived promptly.1 of 1 people found the following review helpful.
