**Kap Stann, Diane Marshall, John T. Edge : Lonely Planet Deep South** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Deep South:

0 of 0 people found the following review helpful. Great help for the priceBy CustomerThis book covers a wide region and, although I haven't taken my trip yet to see just how accurate its recommendations are, it seems helpful and I appreciate the detail. I think this book is being phased out, but I couldn't find another which covers the same area as thoroughly. Guess there's a book out there waiting to be written!

Detailing Southern literature, music, and civil rights history, this guide provides coverage from Graceland to the Grand Ole Opry to Preservation Hall. The book also includes itinerary suggestions and tips on planning and transport.

.com Covering Louisiana, Mississippi, Alabama, and Tennessee, Lonely Planet provides 69 detailed maps; accommodation options from forest campsites to antebellum plantation mansions; plus history, museums, personalities of the Civil Rights movement, Mississippi blues profiles, clubs, and festivals. The South is a geographically large portion of the country, with terrain that ranges from sunny Gulf coast beaches to Cajun swamps to sugar-cane fields to Appalachian hardscrabble, and for first-time visitors it may feel like a foreign country. It's a good place to have a reliable travel guide, with all the necessary particulars (lodgings, transportation, tourist offices, and liquor laws), plus where to get your pork tenderloin, fried okra, and pecan pie feasts; your hickory-smoked barbecue, corn pone, or shellfish extravaganzas; and your Creole and Cajun comestibles. This guide covers all the bases. Along with comprehensive listings for sightseeing and nightlife, there are interesting sidebars on floating casinos, the etymology of redneck, and a little baseball background on Birmingham's Rickwood Field, plus an introduction to Louisiana's Daiquiri Drive-Thru, where you needn't leave your car to drink and drive. --Stephanie Gold
