expectations. It is well organized. I love the color codings by regions so that one can easily go to a region of interest. It gives you everything that you need to know about California. I would recommend this book to anyone especially to my friends in The Bahamas. 0 of 0 people found the following review helpful. Not for kindle paperwhite By Adri The guide doesn't any additional information about the places or getting around that you wouldn't find online. The best of California By kstars Did you know that in a year, 80% of the trips to California destinations were made by Californians? It's a wonderful state. So diverse. Lonely Planet does it again with a superb travel book by superb authors: By: Alison Bing, Andrea Schulte-Peevers, Andrew Bender, John Vlahides, Sara Benson, Bridget Gleeson, Nate Cavalieri Alison Bing wrote the San Francisco Pocket Guide from Lonely Planet, which is amazing. She's lived there for 18 years, and contributes on other Lonely Planet guide books as well. The book starts off mentioning The Quick Start Guide: Throughout the book, these recommendations appear in each section to summarize what is best to see and do. It includes: Highlights for the whole country and each region; the best... by category -- shops, restaurants, museums, and more; Itineraries -- recommended routes to suit every time frame; need to know -- practical details are all in one place to make planning easy. Through the book there are icons: For the best... (lists for everything from bars to wildlife -- to make sure you don't miss out), Don't miss... (A must-see -- don't go home until you have been there), Local knowledge... (local experts reveal their top picks and secret highlights), Detour... (special places off the beaten track) If you like... lesser-known alternatives to world-famous attractions. The following icons help you quickly identify reviews in the text and on the map: Sights, Eating, Drinking, Sleeping, Information. Contents: First category: "Plan your trip" -- which includes, This is California, California Map, California's Top 25 Experiences, California's Top Itineraries, Month By Month, What's New, Get Inspired, Need to Know. Second category: "On the Road" (which includes a list of specific places in each category) -- Includes, Los Angeles, San Francisco, Northern California and Central Coast, Napa and Sanoma Wine Country, Yosemite and the Sierra Nevada, San Diego and the Deserts, plus Disneyland and Orange County. Third category: "In Focus" -- which includes California Today, History, Family travel, Way of Life, The Arts, California cuisine, Beaches and outdoor activities, plus land and wildlife. Fourth category: "Survival Guide" -- which includes a directory of most items you need for travel, and transportation. There are many full-color maps in this color-coded book. Before the whole map of California is a two-page spread with a picture of a cable car, and a text story of California with the following headings, and a quote: It start out with the main heading, "This is California", followed by some facts, the next sub-heading, "California is older than it seems", followed by more facts, "Everytime Californians sit down to eat they have a nationwide impact,, followed by more facts, and "Californians are once again getting by on their wits", followed by more factts. Finally, the quote: "Trends are kick-started here by a motley crowd of surfers, artists, and dreamers." This book is worth the money!
