before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Discover Maui (Travel Guide):

4 of 4 people found the following review helpful. This was our bible! Best of the Maui books. By Barbara Took it everywhere. Great tips. Well organized. Great typography and design. "Best of " boxes in corner (easy to find) incredibly useful. Useful maps. Loved, loved this book. We practically wore it out. We referenced it probably 15 times

a day. Never led us wrong. Buy this. You won't be sorry. 16 of 17 people found the following review helpful. Used it a lot on the trip! By A. Greene I took this and Maui Revealed on the trip. I know everyone raves about the "other" book but I loved this one. I found it to be easy to read and refer back to. The pictures are nicer and I love their "top 10" lists. No book has any secrets that the others don't. I actually found some awesome info and places in this book that I didn't find in the other. Perhaps this one just seemed easier to refer back through and find what I wanted! 0 of 0 people found the following review helpful. many places but the book on Maui read more like a Chamber of Commerce attractions guide By Brian Hill This book did not meet my Lonely Planet expectations. I have used those books to travel many, many places but the book on Maui read more like a Chamber of Commerce attractions guide. We had to buy a second book to get the insider information that we were hoping for the Lonely Planet book.
