Lonely Planet, Lee Slater, Sarah Bennett, Jim DuFresne : Lonely Planet Hiking Tramping in New Zealand (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Hiking Tramping in New Zealand (Travel Guide):

1 of 1 people found the following review helpful. Don't bother.By JWParkerI'd agree with the other reviewers here -- a lot of the same information can be found on various web sites. However, the book is portable, and can be used on the road to give some background on the various areas. Not great for day hiking though, which was kind of what I was

looking for. 1 of 1 people found the following review helpful. Ok, but Moires is better. By Sam Kim Pretty good. But Moires South is better for South Island tramping/trekking/hiking. Everyone in NZ will tell you that. Too bad it's out of print. But you can go to any local library in NZ and take a look at it for reference. Very worth it. 0 of 0 people found the following review helpful. Five Stars By Anthony Hermann really good book.
