Lonely Planet, Paul Clammer, Brendan Sainsbury : Lonely Planet Jamaica (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Jamaica (Travel Guide):

7 of 7 people found the following review helpful. New is a waste of moneyBy CustomerThe newest edition is 100 pages smaller than the 2008 edition. The maps have deleted much info, places to stay are extremely limited -they have deleted many choices and there events are listed which haven't been in 5 years. I was Peace Corps in Jam 2010-2012 and the 2008 edition was our bible for the island. The new one isn't worth the money-buy the 2008 edition, yes the

prices stated are out of date but there is much more info. I was in country during 2014 LP editor revisit, had contacted LP main office to inform them of new attractions but it was for naught, they never even went there. New is a waste of money, it is a rehash without verification, yes there is some new stuff which is accurate but it is far between. Purchase Old4 of 4 people found the following review helpful. Not worth the moneyBy 15000m454No pictures, extremely basic maps. You would be better off just searching online-this is a waste. It has very basic information while missing on giving more in depth information on certain sites/trip plans. this would be good if you wanted a handful of hotels, restaurants in various areas.0 of 0 people found the following review helpful. Five StarsBy JIMok

#1 best-selling guide to Jamaica * Lonely Planet Jamaica is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you.
