Lonely Planet, Adam Karlin : Lonely Planet Miami the Keys (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Miami the Keys (Travel Guide):

0 of 0 people found the following review helpful. More Lonely Planet publications will be in my feature!By Larry McCartyI was very pleased with Lonely Planets, Miami and the Keys. First and foremost, I am an avid map reader. I am studding places I would like to visit and possibly make my home. I want an en-depth clear mental view of the entire area to study at length. I feel that the maps in this publication are excellent and well worth the money just in

them selves. Further more, I was drawn in to the wonderful friendly writing style that Mr. Adam Karlin uses to introduce the reader to so many fantastic venues that await a traveler in Southeastern Florida. By all means I would recommend this book to anyone anticipating travel in this area and I would point out that it would be wise to read the text well in advance of actual departure. It is the kind of information that is interesting reading beforehand, and definitely an asset to keep easily tucked in ones purse or pocket for spur of the moment reference as your journey unfolds! Miami is a beautiful fast moving tropical city. You should know your way ahead of time, and have things planed. This book will help you do just that!0 of 0 people found the following review helpful. Great travel book!By Caitlin StewartMy husband and I are headed to the Keys in 11 days for our honeymoon. We are adventure and outdoors oriented. I've used the lonely planet books for years when backpacking in other countries. This book met my expectations and then some. The book ioffers great information, logical organization, and a variety of dining and lodging options for all budgets. I appreciate the inclusion of kayak and bike rental shops, snorkeling outfitters, and oddities like Perky's Bat Tower!0 of 0 people found the following review helpful. HELPFULBy Carlos Henrique F OliveiraThe guide is quite helpful. It contains the best points we need to make our trip an excellent experience. At the beginning, finding the content we were looking for was a little confusing, once it is a version to use with a Kindle, but after a short navigation we got used to it and went on looking for information and get great value of it.Thanks to the guide the trip was a great experience!

Lonely Planet: The world's leading travel guide publisher Lonely Planet Miami the Keys is your passport to all the most relevant and up-to-date advice on what to see, what to skip, and what hidden discoveries await you. TripAdvisor Travelers' Choice Awards 2012 and 2013 winner in Favorite Travel Guide category 'Lonely Planet guides are, quite simply, like no other.' - New York Times 'Lonely Planet. It's on everyone's bookshelves; it's in every traveller's hands. It's on mobile phones. It's on the Internet. It's everywhere, and it's telling entire generations of people how to travel the world.' - Fairfax Media (Australia)

About the AuthorAdam Karlin was born in Washington, DC and raised two hours south of the city in Southern Maryland, where the Potomac and Patuxent rivers spill into the Chesapeake Bay. Besides field trips, he never properly explored the capital until he started covering crime and politics in nearby Prince George's County n this following a period of (still simmering) wanderlust, when he worked as a journalist and editor in every inhabited continent on Earth. Lonely Planet has generously helped him continue his expeditions, and he has worked on roughly 20 Lonely Planet guidebooks.
