I expected more from LP. Other guide books from LP give you insider tips where to go, things to do, lodging information. I was hoping that I would get more insight into the parks such as small hikes, where to gas up and stock up on groceries, and

even some valuable campsite information. Everything in this book I can get from the National Park Service App and REI Parks App. This is just an overview of All the parks with little information limited to one to five pages depending on the park. I'll continue to buy the "country and city" guides but this book is just a waste of money with information available on several websites.0 of 0 people found the following review helpful. Gives some nice info but loses it in camping and small town ...By Xenas MomFirst time seeing this and it is okay. Gives some nice info but loses it in camping and small town info. Sorry. Earlier editions are better.0 of 0 people found the following review helpful. Planning on some road trips this year.By patti dosmannPlanning on some road trips this year. It will help us plan our trip and what we want to see

Lonely Planet: The world's leading travel guide publisher Lonely Planet USA's National Parks is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you in all 59 of the USA's nationally protected lands.
