Lonely Planet : Lonely Planet Washington D.C. (Lonely Planet City Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Washington D.C. (Lonely Planet City Maps):

6 of 6 people found the following review helpful. This was the only map I neededBy A CustomerThis was the only map I took on my last trip to Washington, and it was all I needed. It was most helpful simply because it showed where all of the major sites are, and it had a separate map which focused on and around the Mall. Unlike most maps this one is durable and waterproof (luckily because it happened to rain one of the days I was there). This map was extremely helpful in every way. All I can possibly tell any prospective buyers is BUY IT! (And it's so inexpensive, too!)

This map offers a complete index of streets and sights, colour coded tourist attractions, entertainment, top end hotel landmarks, parks, shopping areas and markets to Washington D.C. It also offers listing of medical to transportation information.
