I wanted to learn more about the vineyards there and got a real treat from the the stories told in this book about each vineyard. Who the people are, how they started their vineyards, and why. It also includes recipes that go great with wines. Highly recommended.1 of 1 people found the following review helpful. A PICTURE OF THE DEVELOPMENT OF THE VINEYARDS ON LONG ISLANDBy PatchesBeautiful photographs and organized with skill giving the inside history on the vineyards located on the beautiful east end of Long Island.

Well over 3,000 acres on Long Island's beautiful East End have been planted with European wine grape varieties over

the last three decades, and the vineyards are widely credited with keeping this beautiful landscape officially designated one of the Last Great Places by The Nature Conservancy green and growing. Add to that the recent praise for wine producers like Bedell Cellars, The Lenz Winery, and Wlffer Estate Vineyards (among numerous others) from sources like the New York Times, Wine Spectator, and Wine Advocate, and it's not difficult to see why the New York Times, in an article on Long Island wines, captioned a photo with the words, Who needs Bordeaux? A tasting of wines from the East End. Like a fine wine, the time is ripe for Long Island Wine Country. Written by the editor of Long Island Wine Press magazine with a foreword by Louisa Thomas Hargrave, cofounder of Long Island's first vineyard, and sumptuously illustrated by an award-winning photographer this book takes readers to each of the area's more than forty producers, telling the colorful stories of the wines and the people who make them. Included are profiles of the owners and winemakers, notes on the wines, and essential details for visitors, such as contact information. Interspersed throughout are delicious recipes from the chefs who use the bounty of the region to prepare delicious dishes to pair with these wines, as well as lush color photographs of the natural beauty of the East End and its winemakers, wines, and wineries.
