**Mary Herczog : Los Angeles and Disneyland For Dummies (Dummies Travel)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Los Angeles and Disneyland For Dummies (Dummies Travel):

1 of 1 people found the following review helpful. Our roadmap during our stay in LA By Denise M. DiFalco This was my husband and my roadmap the very first time we toured Los Angeles together. I had the 2nd edition of this book and found it to be extremely helpful. Included is a bunch of post it stickers to bookmark your favorite spots. She has everything from best hotels to stay and where to eat along with sites you won't want to miss. Going to LA...don't leave

home without it. 0 of 0 people found the following review helpful. Don't Leave Home Without It By A Customer This guidebook is witty, useful, and trail-breaking. Mary Herczog takes Los Angeles and somehow makes it fun, organized, and not scary. What I liked best about it, she focuses on things most people miss, the sort of thing that you absolutely want to know about if you're going there without any kind of inside knowledge or friends in town, and she makes it all so fascinating and entertaining to read about. You can have a good read here even if you're not going to LA anytime in the foreseeable future. Also she knows where all the really cool places are. And I know the title says "For Dummies" but obviously she's not, and she doesn't treat her readers as dummies either. A terrific book. Highly recommended. 2 of 2 people found the following review helpful. Good For Locals Too By A Customer Some friends of mine from high school were coming to visit me here in LA and bought this book and had a great vacation, largely due to the terrific advice given in it. LA is a big sprawling mess of a city and the book helps narrow it down to a manageable size, especially for first time visitors. The surprising part was when I looked at the book while they were here - the stuff I learned on restaurants, attractions, and more that I never knew existed was amazing. It's opened my eyes to a whole new LA. Excellent all the way around.

Her mom sat next to Norma Jean Baker in home room, and since Norma Jean went on to become Marilyn Monroe, this clearly gives Mary ample authority to talk about Los Angeles and, of course, celebrity scandals. She also writes Frommer's New Orleans, Frommer's Las Vegas, and Las Vegas For Dummies, plus one half of California For Dummies, and when she's not doing that, she works in the film industry.
