By Jaime This got me through my first few years in Los Angeles, before I could afford GPS, and before it became standard on every mobile device. I suppose this sort of book is outdated and less useful now, but I still keep it on our bookshelf in the house, just in case. It's not something I keep in the car anymore. If you can't afford GPS or a fancy phone, having this book in the car will surely keep you from getting lost. 2 of 2 people found the following review helpful. Indispensable By Ezra Horne I always have this with me in my car. It helped me learn this city 10X faster than my GPS assisted friends. Now I know my way around I rarely reference it, and I have a smart phone, but that often fails. I can make a route with Thomas Guide maps much faster. Thanks Thomas guide! 3 of 3 people found the following review helpful. great map By A. Corrae I am a truck driver and run daily routes all over l.a. county and this map has helped me tremendously. it is 100% accurate and easy to follow. my only complaint is that the pages don't hold up for everyday use. a few pages from my map are missing because they tore off from the binder.

Block numbers and ZIP codes on map and in index, Schools, shopping malls, hospitals and more. Township tier, range, and section numbers.
