Louisville and surrounding towns felt about life in the middle of a civil war. During my college days at UofL, there is a confederate monument at the 2nd , 3rd street turnaround on campus, I have always wonder why this monument was there, it was to me at the time so out of place for being a union state at wars end. Reading this book helped me to understand the feelings of Louisville folks by the end of the war and why this monument was placed there. I recommend this book for anyone that has ties with the city of Louisville, state of Kentucky and civil war buffs to understand on how important Louisville, Kentucky was for each side during the 4 year conflict.
