HeartlandDespite being a beautiful country, many Malagasy do not have access to beautifully illustrated books such as this one. Now in our 5th year of living here on the island, I can say that this book has been one of the favorites with its beautiful illustrations. My husband and I have also used it as a personal check list for National Parks we hope to see in the future. Some are already checked off of our list and met with the same approval given by this delightful Safari Companion.0 of 0 people found the following review helpful. Good gift for travelerBy LisaThis was for a relative of mine visiting Madagascar - he loved the trip and the book.1 of 1 people found the following review helpful. ExcellentBy S. MitchellWonderful photos. Great book whether you are traveling to Madagascar or not. Nature lovers will enjoy this book also. A keeper.

A perfect addition to holiday planning to these exotic destinations, both a travel guide and photographers reference book.
