**Marcia Henry : Madeline Island ABC Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Madeline Island ABC Coloring Book:

The new Madeline Island ABC Coloring Book is now available as a companion to Marcia Henrys Madeline Island ABC Book. Popular for children ages 512, the coloring book includes twenty-six pages of alphabet fun, two mazes, a word search, and a crossword puzzle. It is perfect for pre-school and primary grade classrooms as well as for childrens playrooms.

Following the success of the popular Madeline Island ABC Book, Marcia Henry and Sally Parsons have now created the Madeline Island ABC Coloring Book. Young and old alike will delight in the text and characters as they tap their creativity to transform black and white illustrations to living color. In addition, the mazes, crosswords, and word-finds provide opportunity for hours of educational entertainment for all!Sheri Milburn, teacher, La Pointe Elementary School, Madeline Island, WI
