1991-2005, initially teaching but later branched out into other areas. This book is extremely outdated and am guessing the 1994 publishing date is actually a later edition as I remember this book from 1990. At any rate, there are plenty of websites that will give you the current lay of the land but be aware that the posters you will encounter are often bitter, negative people. If you want to go to Japan just go and figure it all out later - you'll be fine.

"Make a Mil-Yen" is an easy-to-read, beginning-to-end guide to everything you need to know and do to get a good-paying job teaching English conversation in Japan. Included are sample work contracts, dozens of useful resources and addresses, and the names and phone numbers of over 250 English-conversation schools in Japan that are continuously hiring teachers. Author Don Best went to Japan without any teaching background, saved a bundle, and had the experience of a lifetime!

"An invaluable resource.
