From the time-worn dirt left by ancient rivers to the slender stone pillars of a gothic chapel, the cave seems to whisper the best-kept secrets of the ages. Mammoth Cave National Park, located in south central Kentucky, was first set aside in 1926. In 1972 it was pronounced the longest recorded cave system in the world.

From the Publisher Each book in this series tells a compelling story through the eyes of an experienced interpreter whose writing reflects true enthusiasm for the park. Complete with running text and interpretive captions, accompanied by abundant full-color photographs, these books will be welcome in any home library. About the Author Joy Medley Lyons, Supervisory Park Ranger at Mammoth Cave National Park, earned her B.A. in English and Creative Writing from Western Kentucky University. Further studies in American History and Folk Studies have meshed with Joy's lifelong love of writing, giving her the opportunity to assist in preserving our nation's cultural and natural heritage.
