**MapEasy : MapEasy's Guidemap to New Orleans** before purchasing it in order to gage whether or not it would be worth my time, and all praised MapEasy's Guidemap to New Orleans:

0 of 0 people found the following review helpful. They are great for a small areaBy loverI collect this maps. They are great for a small area. If you are looking for a larger guide of the area, this one cuts off at a certain point. Don't forget to check out Lafitte's Blacksmith Bar.4 of 4 people found the following review helpful. Neat but not for the streetBy Thomas H. MuellerI really like this series of maps, but don't think about using it to walk around town. I think it is a good resource to review prior to a trip or back at your hotel. However, this isn't a map you want to whip out on the street corner to try to find your way around. The information is great, and the included points of interest are informative. This product is more like an illustrated guide book than a useful map.1 of 1 people found the following review helpful. Five StarsBy David C.Perfect for my vacation!
